Provide Air to Two Bridge Jacks at Once

[Rolling bridge jacks](#) are great for extending the functionality of your BendPak [four-post lift](#), and they're about to get a whole lot better. Install this helpful kit and elegantly hide the airlines beneath your lift's own runways. One AK-14 kit provides air infrastructure for two jacks.

Features

- Allows bridge jack pneumatic airlines to be gracefully hidden beneath lift runways
- High-quality mounts
- Airline included
- **Note: Hose length varies depending on lift model. Order the appropriate Air Line Kit according to your lift model.**
