LiftMotive LM-3000FR Full Rise Portable Scissor lift.

The LiftMotive LM-3000FR Full Rise Scissor Lift is the perfect above ground lift for professional garages. A space saver combining an extremely low lift platform height and a 1.90m full rise scissor lift system.

Features

Automatic Engaging Safety Locks

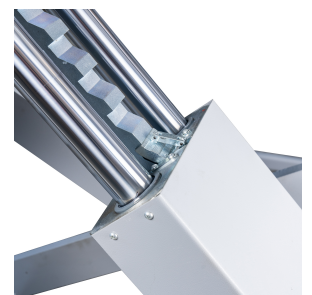

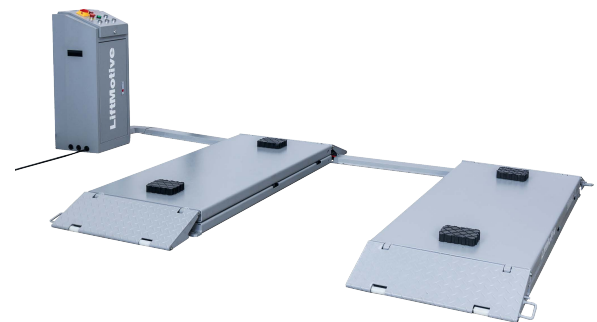

The lift is equipped with two high quality automatic engaging safety locks.

Easy To Use

The separate control panel can be conveniently positioned to allow easy access for the operator.

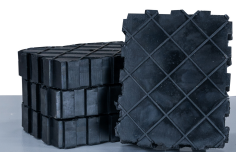

Lockable Ramps

Ramps are lockable at full extension. This means the maximum lift point spread is adjustable for short and long wheelbased cars.

Tested with 4000KG

We conduct thorough in-house testing on all our lifts, going above and beyond standard requirements. This includes a weight test where we exceed the maximum capacity by 1000 kg!

LiftMotive

Set of 4 Rubber Lift Pads

Four rubber blocks with 50mm height included
